

Dear year 6s

First of all welcome to secondary! It's gonna take time to settle in a new class along with new classmates as well, it can also be exciting or ^{scary} going to secondary and believe me I've been there but as I got used to new things I realised secondary wasn't as bad as I thought. Secondary is a challenge not just any challenge an incredible challenge but also scary too, new teachers, new classmates and even a new class that you'll truly get used to by the end of September. We do alot of amazing non stop memorable activities also exciting as well like stem day which is all about science and expermenting thanks to Alison Barringer the keystage 3 leader very nice and encouraging as well trust me you'll love her, we also have discos as well like halloween, Valentines, Christmas and many more, we even have library club, football club even our very first school newspaper clubs and many more that you will love, there's also called leisure options where you choose something you want to enjoy every Friday afternoons that you'll truly like and love.

And one more thing there's also school council ^{representative} ~~representative~~ which is leaded by Carol Whicktick who is very lovely and supportive and truly understands you and dinner means are incredible too, you'll love the food the cook and make as well there's delicious and so enjoyable you'd just wanna know how to make one yourself. The secondary teachers are amazing to work with and are really funny so my advice is: Face new challenges and try your best to give it a go! Don't ever stop!

Sincerely
Sensely Palesa Noziwawa
