Innapropriate content

Online games

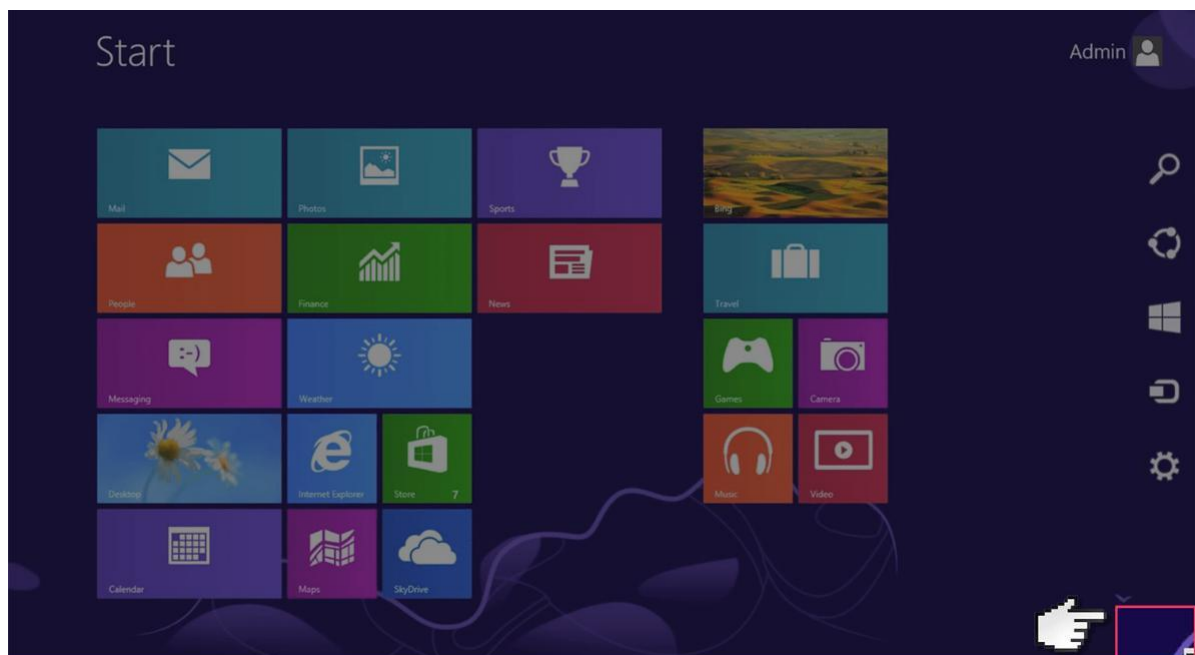

Timer

What do I need?

A new account for the child and Password

Windows 8 guide

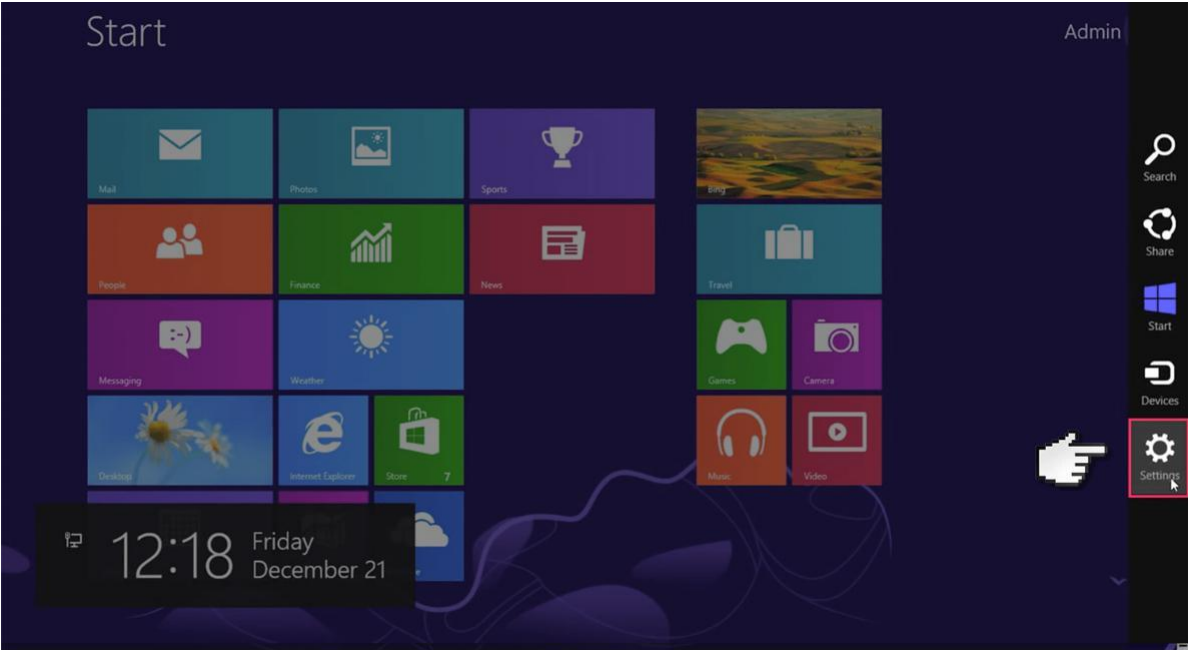

- From the desktop, take mouse to bottom right corner to bring up the navigation panel.

Windows 8 guide

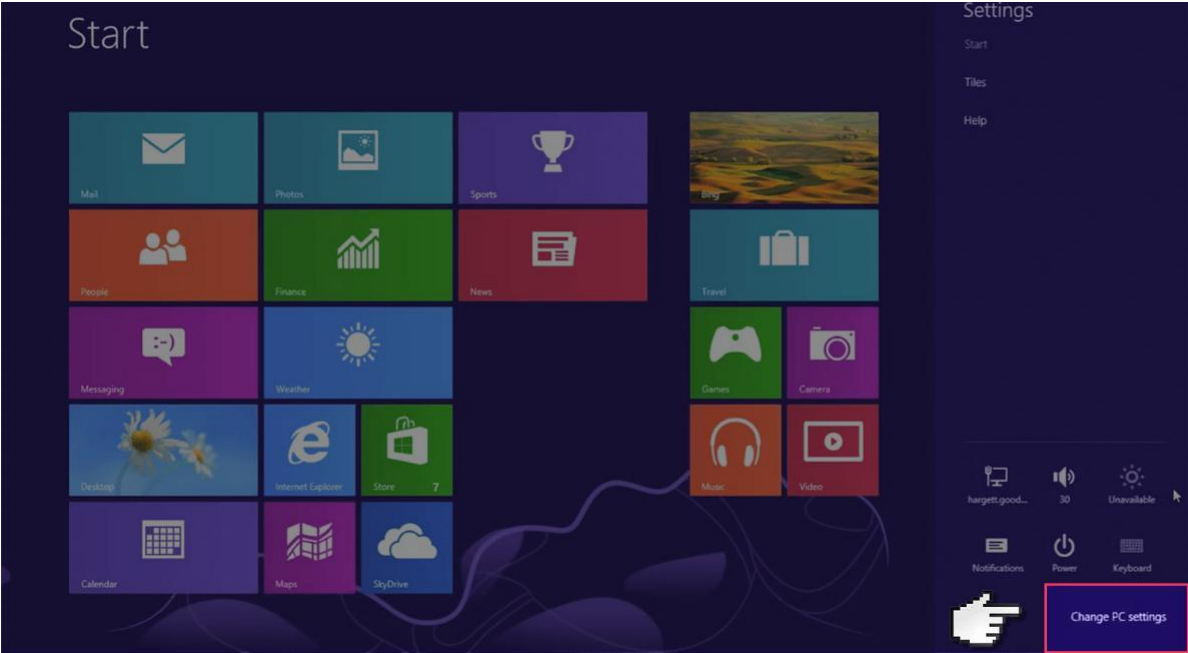

Click on 'Settings'.

Windows 8 guide

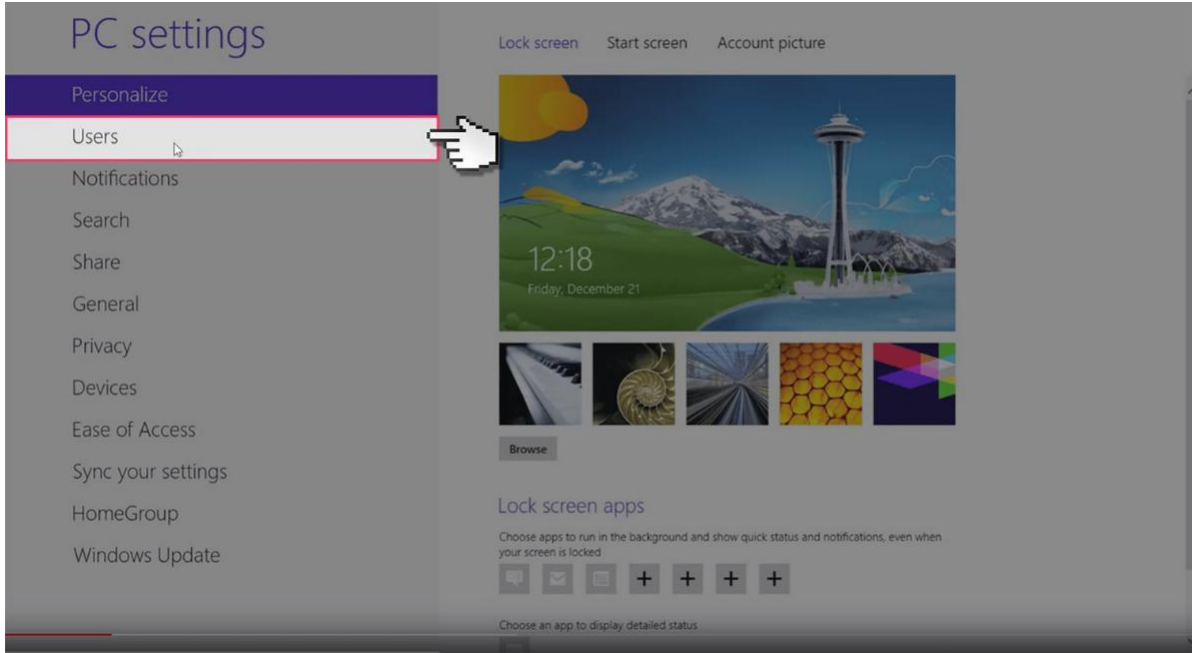

Then select 'Change PC settings'.

Windows 8 guide

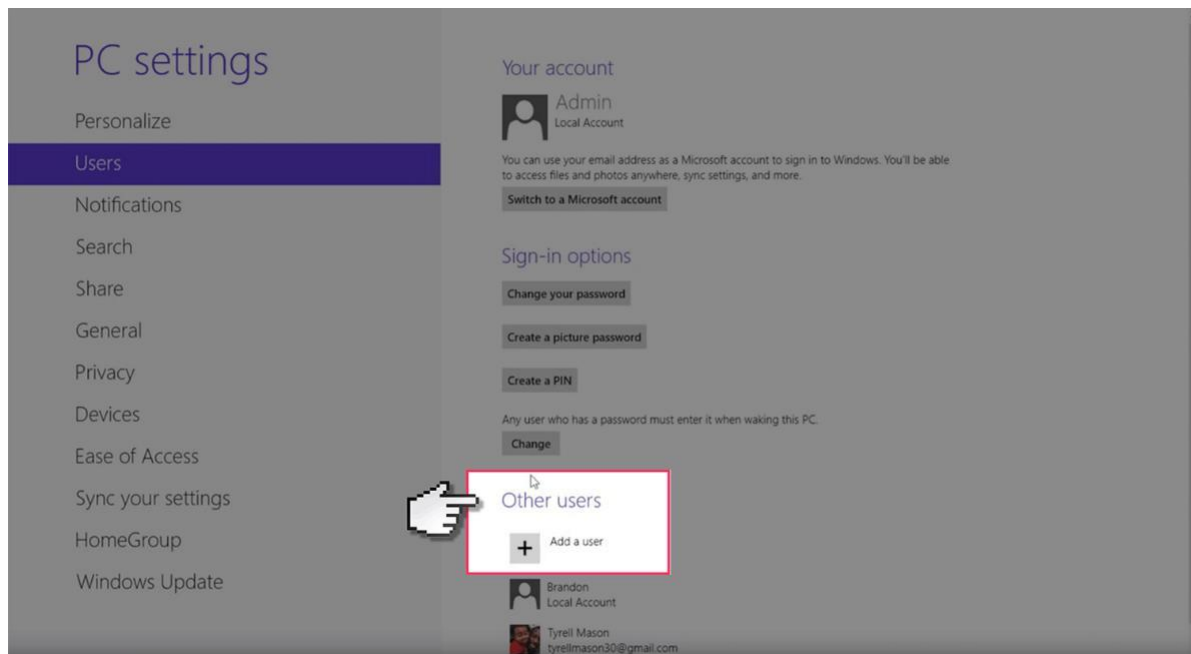

Select 'Users'.

Windows 8 guide

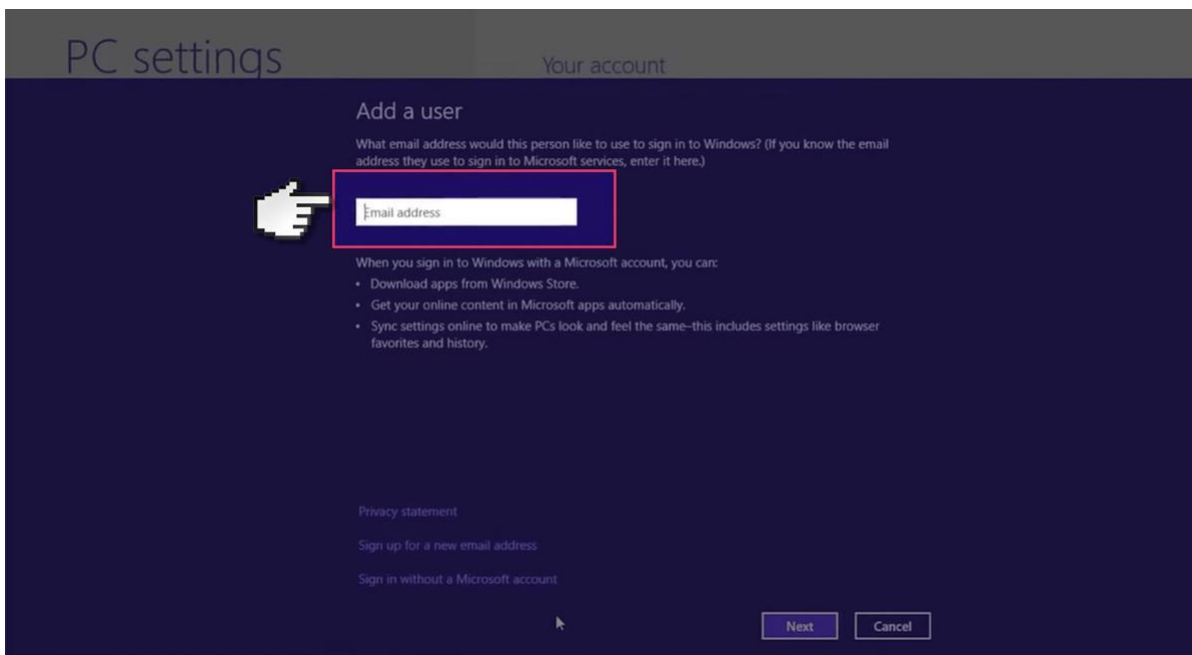

If you don't have a separate account for your child you'll have to create one now. Select 'Add user'.

Windows 8 guide

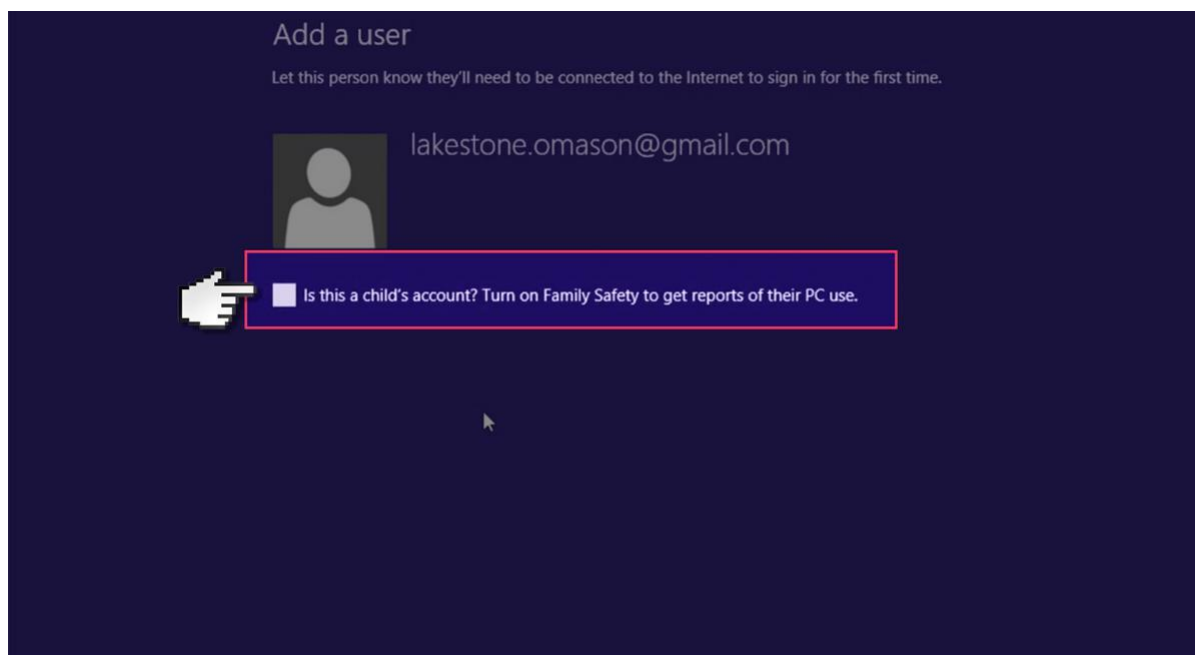

Insert Windows Email address.

Windows 8 guide

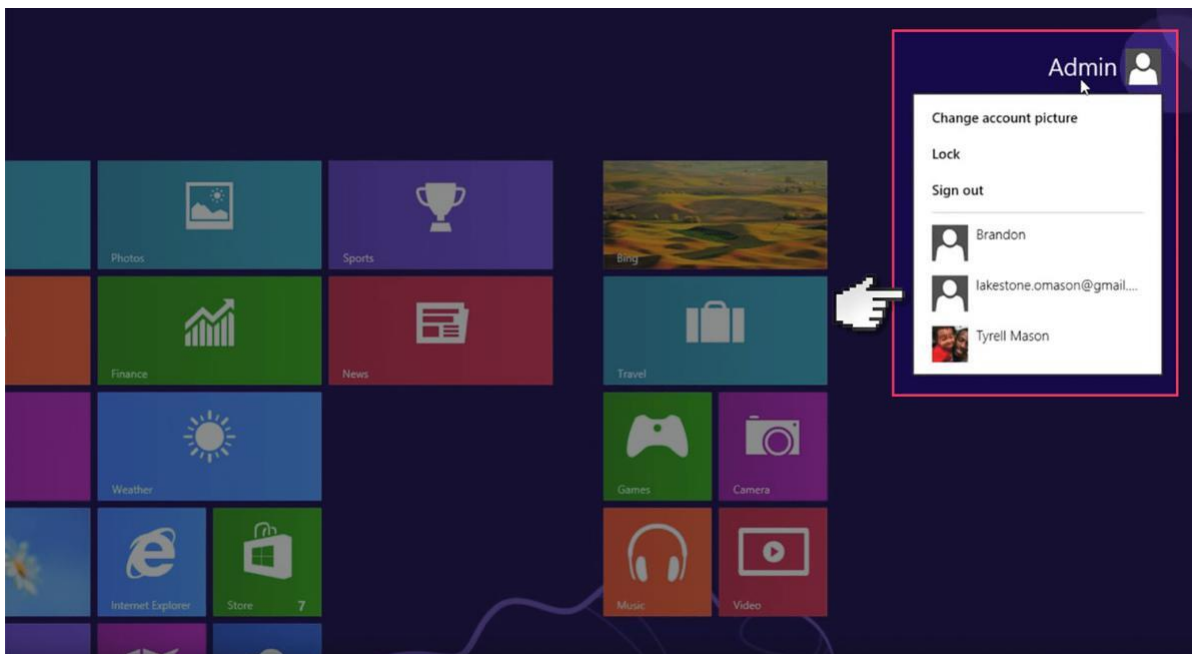

Then tick the 'Childs Account' box.

Windows 8 guide

Switch to your child's account and insert the password to start making account changes.

Windows 8 guide

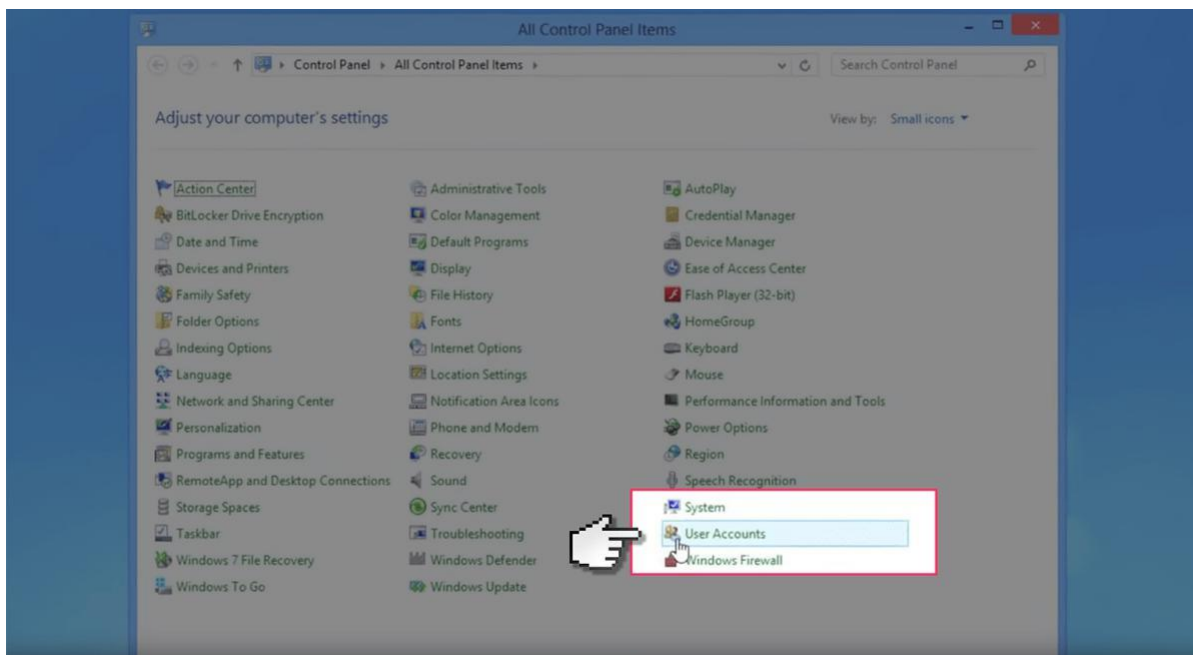

- From the start screen, just type out control panel and press enter. This will bring you up to the control panel folder.

Windows 8 guide

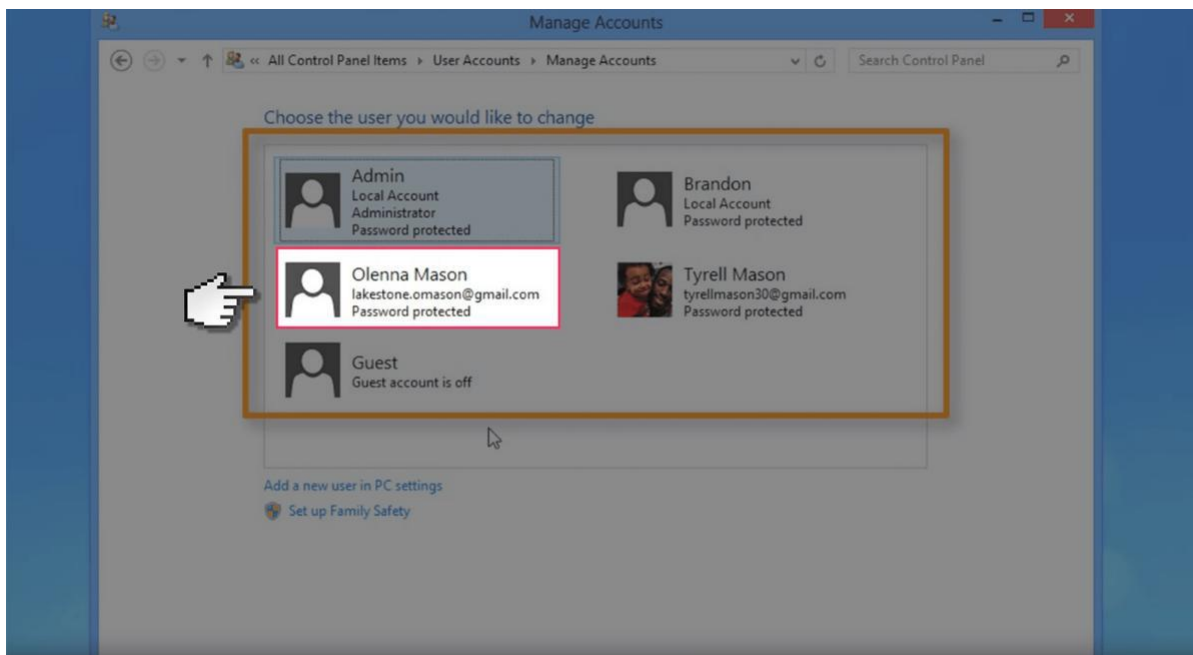

Select 'User Accounts'.

Windows 8 guide

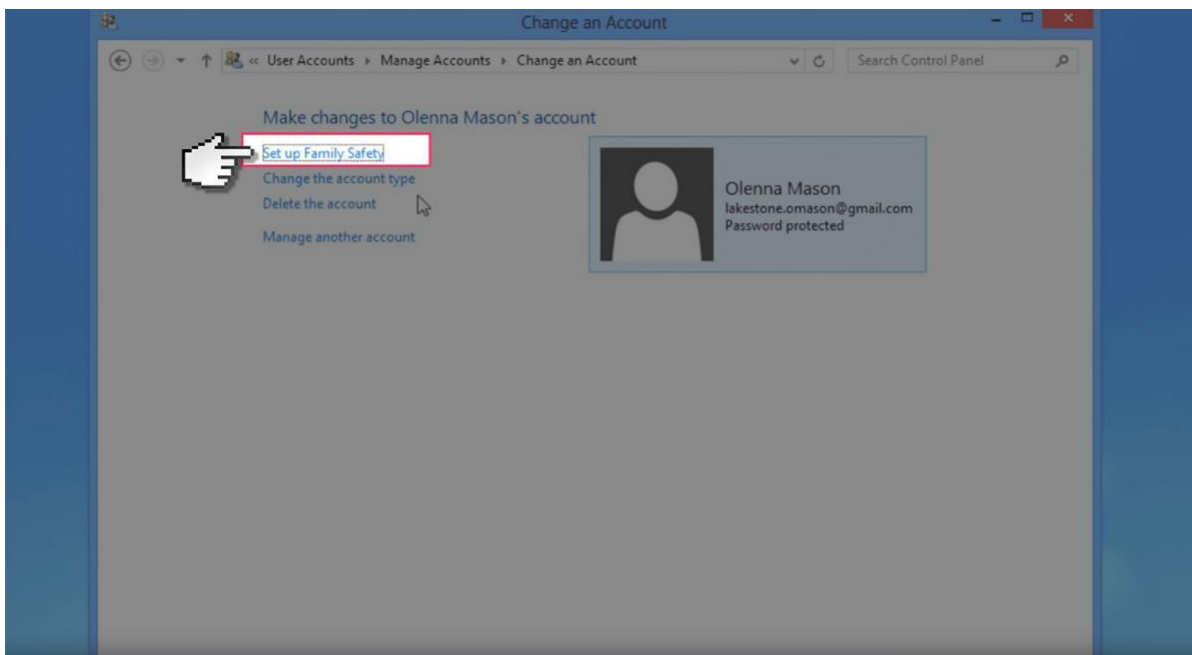

Select the new child's User account.

Windows 8 guide

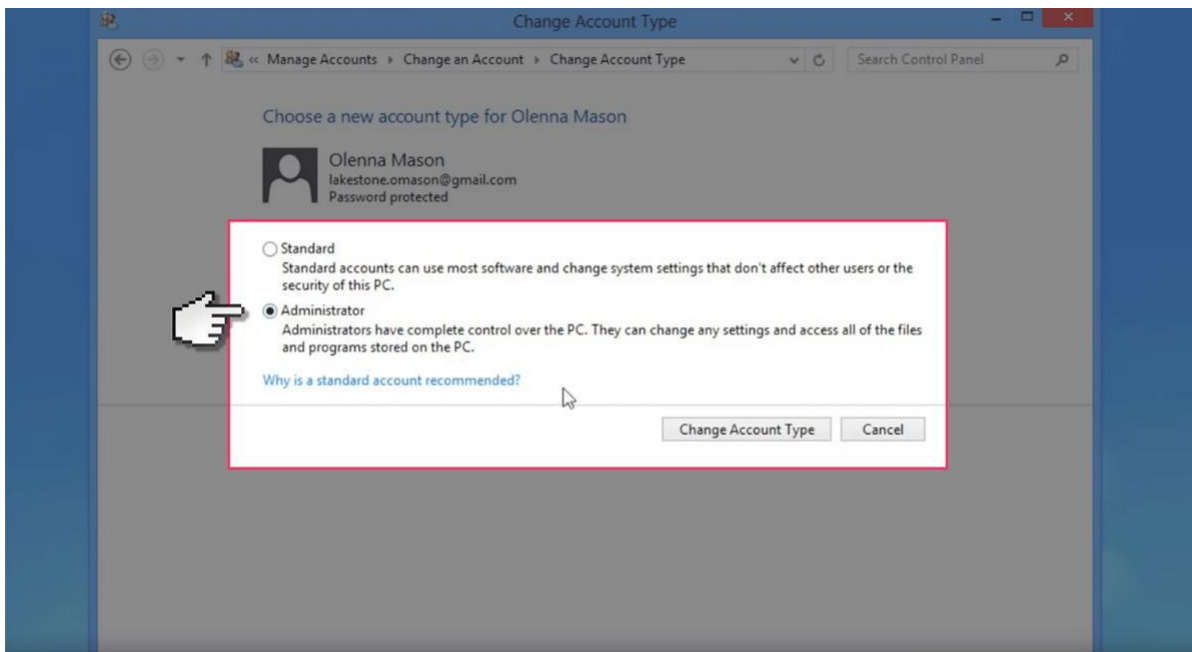

They select 'Set up Family Safety'.

Windows 8 guide

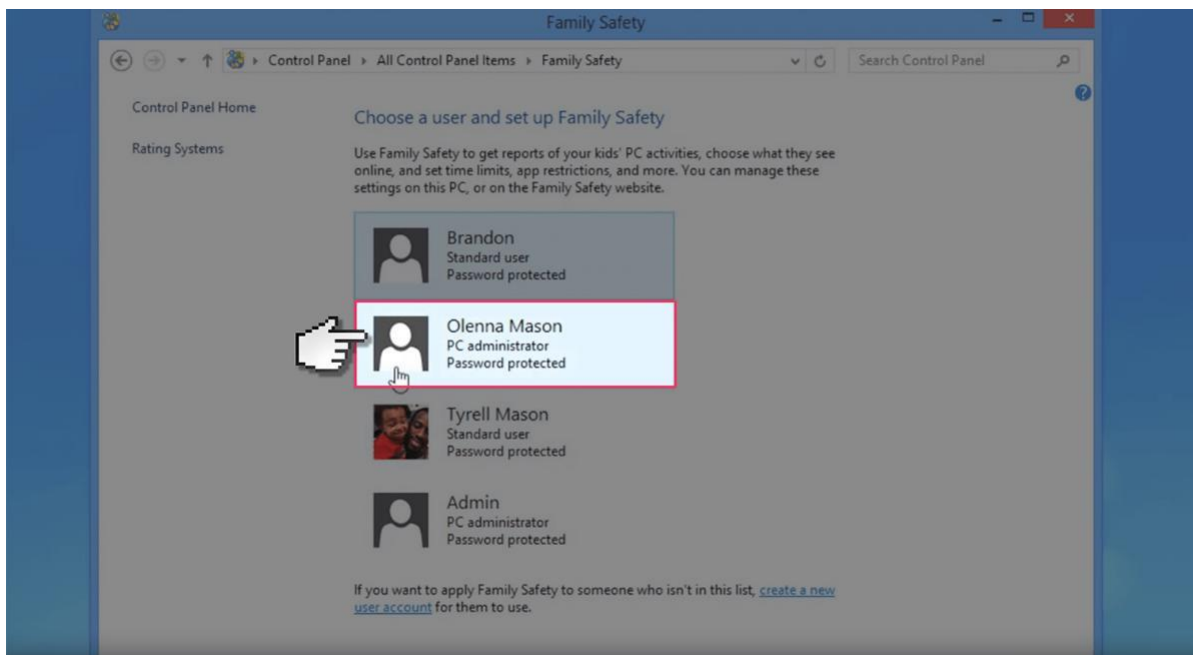

Change this account to administrator. This will allow you to change settings on the account.

Windows 8 guide

Now open up the child's user account.

Windows 8 guide

And now you have access to restrict web content including viewing activity reports to see what sites your child has visited. Time limits, Windows Store and game restrictions, plus app restrictions.
